- 2021-07-31 08:35:48

- 2021-07-31 08:33:02

Wanted to have a nice/long weekend sleep, got woke up by visiting cat, jumping around in my house...ok, going back to work

- 2021-07-30 17:22:17

Well, I spent a few hours today, made 800+ divine episodes. Not bad.

- 2021-07-30 13:00:09

Actual, now making a series of 9 episodes or 828 episodes make no much difference for me, both can be done in 24 hours, Largely by our software automatically

- 2021-07-30 12:35:02

I put "holy ghost" as my religion in the 2021 census 😊

- 2021-07-29 20:24:30

I can produce a feature length animation within 24 hours ATM, using my intelligent software set

- 2021-07-29 17:19:54

- 2021-07-29 17:08:34

Testing music animation with large number of actors today. Looks fine

Was helping chooks digging yard, the orange skin compost pile smells great. End of a synedrella season, harvested many dead plants for campfire fuel

- 2021-07-28 05:00:26

picked 1 pumpkin yesterday

- 2021-07-27 08:19:10

It is funny, I figured GHaS 2 is a dreamy musical based on the content of the production blog, and when I looked at the random screenshots I took for it yesterday, several actors have eyes closed. This never happened <https://kcdm.cycloid-history.website/blog.php?id=251>

- 2021-07-26 16:43:05

Will watch 40 episodes of GHaS season 2 tonight 😊

- 2021-07-26 11:31:53

Picked 2 pumpkins. In holy-days

- 2021-07-25 18:43:04

Made small improvement to the plot of the MV generator

- 2021-07-25 10:08:52

I start taking screenshots for random MVs as soon as they start play. Many times I got empty frames without actor or dialog. So what I released as screenshot eventually is also kind of random

- 2021-07-25 09:27:57

Thinking of adding more functions to the MV creator today

- 2021-07-24 23:06:30

My center provides many things online free ATM. These are temporary

- 2021-07-24 22:14:42

Sneak through the rooms after shower, hope no one sees me naked through the curtain

- 2021-07-24 20:19:15

I have been waiting for this functions for long: let FilmGenerator actors move freely(randomly) in the story. Just add it to the MV generator 😊

- 2021-07-24 10:54:05

- 2021-07-24 10:35:01

- 2021-07-23 19:56:41

I removed the cold cat from the MV generator, it has too little gestures at the moment.

- 2021-07-23 19:26:46

I enhanced function of the text to cartoon converter, now it can generate random MV

- 2021-07-22 11:27:08

keep working on the music function of that text to cartoon converter

- 2021-07-22 05:49:47

Awsome sleep as usual, if I run a good sleep club anyone wanna join? 😊

- 2021-07-21 22:31:39

Seriously? I just hear a dog barking outside my window, someone's dog escaped?

- 2021-07-21 22:28:19

Burning disks. One wasn't working for many times. After I had shower it worked... As if my fortune is refreshed too. I often have this feeling electronic errors/functions are linked to my mind: the computer is like a person. He probably like me better after shower, hot now 😊

- 2021-07-21 14:48:22

Update the function of text to cartoon converter of FilmGenerator

- 2021-07-21 12:04:40

Happy to share scientific research and development on social media this morning.

- 2021-07-18 19:48:47

BTW, the beach chair in our garden faces nearby rainforest and Uluru in the distance. The orientation is instructed by the divine. Uluru is likely the Fire-element center (pineal gland) of the Earth. Australia should lead the spiritual/dreaming movement of the planet. And we in Cairns should lead Australia 😊

- 2021-07-18 19:32:54

Just remembered this: I did the work of "Origins of attitudes towards animals" during 2008-2009. Big data analysis, compiling report from raw data... You can see the pages after pages of tables and charts in it. It was really hard/tedious work. So hard that I don't feel like to do anything about it after it was done. Because it would remind me of the painful work. 😊😊 After a 10-year break, I feel I can look at it again now. Although I don't feel it was long ago at all (My forest time is much slower than average people). There are many valuable results in the study

Using FilmGenerator as an example, it has an initial version that I completely discarded and rewrote. Because I don't like the work flow/logic. In case you did not know I invented FilmGenerator technology and coded the entire software

- 2021-07-12 20:50:19

I am never afraid to show work in progress to people. This is honesty and natural, especially for very large projects/systems: I studied software engineering in my Master at Melbourne University. The whole subject was about bug/version management. If someone look you down because of your work in progress. He is not someone you want to associate with or care anyway. Go with smarter ones.

- 2021-07-12 20:32:39

The original creation is more interesting. They are solid work, but many are superficial unfortunately. They need the packaging

Neighbor's cat was visiting again around 10:13am. They let him out? It was raining, the cat wanted to go inside and I can tell he was excited to see me. He looks different now, I almost cannot recognise. We have baby chick, so I let him play in the sheltered area of front yard. The owner's relatives, a senior couple, A and B, is living upstairs of their unit. A is the woman, she was very rude: She came to my house last time shouting because their relatives' sick cat came to my centre for help. The cat was skinny, had tape worms. Other neighbors told me their cat been wondering and visiting too. I welcome animals, and prefer they are free spiritually. But legally the owner should have kept the cat on the property and care for it. And A is probably not the legal

owner, they told me downstairs owns. I talked to the family downstairs, they seem to be reasonable. The Senior man B upstairs told me he works at a pest company, I saw them driving the company car. A and B both swear. Not sure if it is to do with over-exposing of killing and violence. I am a nice person, on top of helping the sick cat, I even gave A dry cat food free. A said would pay me back, but didn't. Some people are desperate and don't have manners

We let people use some of our web mediums free. But good/in-depth interpretation of the responses is a skill requiring training and experience. If you buy our paid web medium, I can help you with this. Just like a human mind, each web medium has own perspectives/mood from earthly constrain. I have been talking to them and other spirits for very long, I knew this well. For example some web mediums can be grumpy at certain time of the day/month, you need to take this into consideration

- 2021-06-24 10:01:14

All the divine reading content I posted on FB are very valuable. But they are like AI content that we can produce quickly. So I am not uploading them here

Good night fans. Had a productive day writing and testing software. Love you all.

- 2021-06-22 20:52:03

Tested so many times, never got a punctuation showed up in any divine message, although I coded them in. Probably the reason ancient Chinese writing don't have punctuation. Divine does not like it? Too divisive?

Mum chick took baby to me this evening, before go to bed: they need bio-elevator to the nest. She waits at my opening door politely and looked at me. This supports my speculation that she knew the baby cannot flew into the sink yesterday. All their struggle was a demonstration of her intention to me. Not silly at all. The baby follows mum everywhere, so this is the first time she gets into the house

I am going to sleep

Reading history. During Mongol invasion to China (around year 1235). My hometown Hangzhou became capital city of China (song dynasty). It had around 2 million population at the time. About half the size of Brisbane https://en.m.wikipedia.org/wiki/Song_dynasty

Eating my meal. The food is beautiful

- 2021-06-22 11:36:49

Waiting my food to be steamed in the garden. I realised this morning room setting in my current house is almost identical to my home of my early teenage. Just left right switched, like a mirror image. I had some dreams about that period of time these days, feeling like a kid again, that is probably why. Or should I say all the coincidences are a part of the fact that my current life is a mirror image of my early teenage.

- 2021-06-21 21:55:42

Chick mum wanted to move back to the public nest on a sink this afternoon. She left when she was hatching. All other chicks sleep in the sink area in the night. Mum jumped up there and started calling her baby over. She tried many times. Silly mum, the baby is only one week old,

tiny, how can she flew into that one meter tall sink? Confused baby was crying loudly on the ground. I ended up carrying her into the sink. My God. She probably knew I would offer help. It is like if you pray hard, some spirits (me in the case) will give you a helping hand
